#### **RCB SAFE Factory program**

RCB have designed a 'Safe Factory' program that can be tailored to your requirements. Why not let us advise your company on implementing a successful

occupational health and safety program from the top down. We can advise on policies and procedures.

RCB also has access to a pool of **national and international experts** in every discipline who can bring a world class response to all aspects of industry. So if we don't have the expertise in hand we can still help you.

RCB can carry out **world class training** for your industries from the basics right through to best available practices and best available technologies in your industries. Talk to us about customised training to suit your needs and your budget. We can deliver training in Bangla and English. We specialise in CSR, GHG reduction, ZDHC, OSH including Fire safety and Electrical safety training.

**Need an independent audit? or do your customers need you to comply with legislation? National or international safety requirements? We can assist here too.**

Please look at our website for more information and put us to the test.

We want to thank our loyal readers of e-briefings over the years and assure you that we will continue to send out useful and relevant topics with each issue. If you would like to see a particular subject just let us know by contacting us on the website or by the details below.

#### **A message from our Managing Director**

##### **Mr. Philip Proctor**

*Welcome to the latest e-briefing from RCB. I am really pleased to be part of a great team here in Bangladesh. I am proud that RCB has reached 10 years of successfully serving the industries of Bangladesh. I look forward to the challenges and opportunities this new year brings. I am confident that we can help you with your requirements.*

**Best Wishes for a Prosperous and Safe 2017.**

**Phil Proctor**
